CASESTUDY

Project delivery: 2023

Customer

Poul Sejr Nielsen A/S

Product

ECS Infrastructure, Enoc Racks and project consulting from Alcadon

CUSTOMER NEEDS

Poul Sejr Nielsen A/S was working on an electrical project for a nursing home for in Egedal Municipality.

- Increasing demands for technical expertise and documentation require time and industry knowledge. They needed a sparring partner to provide ongoing support throughout the process.
- Delivery of high-quality rack cabinets, infrastructure and testing equipment on short notice.

HOW ALCADON HELPED

- **Expert Knowledge**: Provided by Alcadon's network specialist (trained electrician):
  - Support during the bidding phase.
  - Product selection and specification during the design phase.
  - Ongoing advice.
  - Documentation and submission for the KS-folder.
- **Delivery of Equipment**:
  - Cat6A UTP cabling, RJ45 connectors, data and Wi-Fi outlets, and patch cables and panels from ECS.
  - Rack cabinets and cable guides from Enoc.
  - Customer-specific ODFs pre-assembled by Alcadon.
- **Equipment Rental**: Fluke Networks testing equipment for post-completion documentation.
- **Webshop Support**: Set up favorites lists on alcadon.dk to ensure fast and error-free ordering.
